

.THE 21ST CENTURY

*Worldwide observance. Now in the year 2002, Legislators continue to push for a Neighbor Day just like Flag Day, in our Nation and in the United Nations, just like the ACT PASSED in our State of Rhode Island in 1999. Representatives Lewiss, Thompson, Weygand along with Senators Algieri, Reed, and Chafee represent our HOPE for NATIONAL and WORLDWIDE PEACE through A Celebration of LOVE***NEIGHBOR DAY!*

Help by doing something your-self; then pass it on to another; this year in the 2003 Neighbor Day that is to be celebrated on May 18, 2003 (Sunday before Memorial Day weekend each year in perpetuity).

FLAG DAY reminds us of pride, patriotism and the men and women who made our freedoms possible.

NEIGHBOR DAY is there to remind us of Love, Peace and Unity; the goal for the 21st Century.

All Neighbors, whether good or bad can learn by our everlasting caring through love. It takes each one of us to benefit by Neighbor Day.

No, it is not connected with Good Neighbor Day which started in 1933 through FTD and is celebrated in September, however, we applaud this effort for everyday should be NEIGHBOR DAY!

It is plain and simple, "Love thy Neighbor as Thyself."

Please write, call, email, or fax and find out the Status of Resolutions sent by the State of Rhode Island to Congress in 1999 and Status of the Committee in Washington, DC which was sent to the United Nations by Ambassador ALBRIGHT in 1996 from our current Representative to the United Nations. Place Neighbor Day (email, website and when celebrated) in your Newsletters and on your calendars, write your Legislators, Clergy, School Boards etc.

Let us attain our goal for the 21st Century from the Peoples of the World!

Thank You and God Bless

p.s.
